Wireless Heating Systems

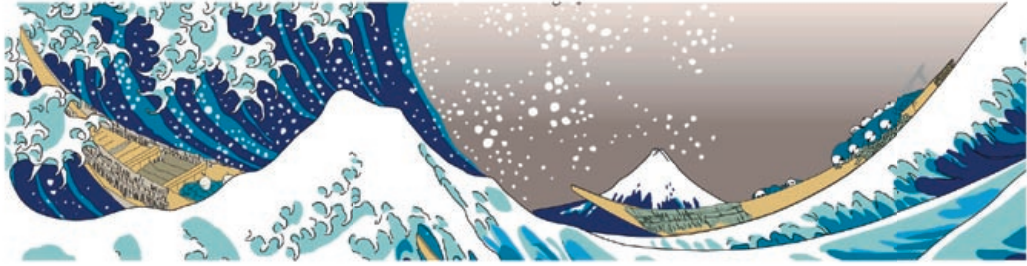

SPACE SAVING IP44 MyPICTURE **WAVES** RADIATOR

Works with Wireless Time and Temperature Control

Ecolec is one of the premier producers of niche, high quality heating solutions, having been producing exciting electrical heating solutions for bathrooms for many years including the first truly slimline, highly effective mirror fronted radiators. Ecolec's latest introduction is the ability to print virtually any image or corporate device on the radiator casing, allowing radiators to become bespoke message carriers, or works of art – and anything in between. Its latest 'Waves' version of this technology will be on show at Grand designs. The new process allows any 'owned' vectored image to be printed using the latest UV printing techniques.

RADIATOR (RECEIVER) KEY FEATURES:

Printed image / Simply wire the heater to a fuse spur / Hidden wiring / No need to manually switch heaters "on" or "off"

WIRELESS CONTROLLER (TRANSMITTER) KEY FEATURES:

Keylock mode / Simple to Programme / Up to 6 temperature settings per day / 7 day clock / Advance mode / Economy mode Holiday mode / Boost Mode / Inbuilt room temperature sensor / Frost protection / Powered by 2 x 1.5v Alkaline batteries

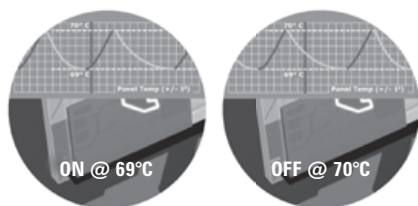

The TX control unit sends a 433MHz radio signal to each "registered" heater within a radius of 30 metres. Each RX panel heater has an inbuilt receiver designed to respond to a signal from the WCT 100/RX.

SPECIFICATION:

LINE REF	CODE	DIMENSIONS (W X H X D)	ELEMENT (WATTS)	OUTPUT (WATTS)	OUTPUT (BTU'S)
22.1	ECO 2000D/IP44/WA/RX/V	500 x 2000 x 40	2000	1600	5459
22.2	ECO 1500D/IP44/WA/RX/V	500 x 1500 x 40	1500	1200	4094

TEMPERATURE RANGE: STANDARD 70°C

NEW:

You can make any electrical product energy saving if you give it the right control. In the case of an electrical radiator you can do this by incorporating an air sensing thermostat and timer control. The Ecolec WCT/100TX has both these functions, and, as it is a battery powered unit, it is intended for safe use in bathrooms.

Ecolec delivers air sensor and timer controls at 433MHz by wireless to IP44 bathroom radiators which have an inbuilt receiver. The WAVES system is a truly innovative energy saving product to reach the bathroom industry in decades.

Buy your WAVES radiator today!
